Reasons For Allowance

1. This Office Action is made in response to applicant's amendment filed on 1/3/2006. Claims 1-7 are currently pending in the application. An action follows below:

Response to Arguments

2. Applicant's arguments, see page 14, filed 1/3/06, with respect to claims 1-7 have been fully considered and are persuasive in view of the amendments to the claims. The rejections under 35 USC 112, 1st and 2nd paragraph of claims 1-7 have been withdrawn.

Allowable Subject Matter

3. Claims 1-7 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a liquid crystal display and driving method to calculate pre-charge voltages for reducing power consumption for driving the display device. Each independent claim identifies the uniquely distinct features converting a present input data and previous data in reference to a look-up table, computing a mean value of the converted present and previous data, and replacing the calculated mean value with a further value approximating the gray scale data and using the value as pre-charge data for driving the display device. The closest prior art, Lee (USPgPub: 2001/0038372), Tanaka et al. (USPN: 6700559), Lee (USPgPub: 2003/0098839), Toshiyuki (Korean Patent Abstract: 1020030004049), and Verhulst (USPN: 5905484) disclose methods of producing driving voltages for liquid crystal displays involving averaging current values, using look-up tables to convert values of previous and current

values and other comparisons of voltage levels, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
